2nd National Seminar
On
"Challenges and Opportunities for Library and Information Professionals in Migrating to Web Based Information Resources"

on

Sunday, March 9th, 2014

at

Shivam Hotel, NH-8, Ramchandpura Ajmer Road, Jaipur

Organized by :

Rajasthan Technical Library Association (RTLA), Jaipur

Introduction

The advent of Information Communication and Technology has drastically changed the nature and scope of a library forever, and has impacted on all of its sectors. In today's ever changing world, knowledge has become more specialized and distributed, as a consequence, the institutional infrastructures have become more complex and interdependent. Harvesting intellectual diversity becomes even critical, if it is based on cooperation and collaboration, and to meet with this issue, a window is desired via which, the library managers could build productive relationships and manage the possible conflicts, in accessing the library world.

This one day seminar is designed to focus on the existing problems and their possible solutions to meet these challenges and enable the user in advance knowledge sharing, in a more successful manner. We shall also learn the importance of collaboration of IT based libraries in professional and academic service organizations.

This seminar will realize the proud heritage of sharing the company of the eminent personalities from different parts of India, who will make their presence to share their experience and best practices and discuss upon the most recent and relevant developments, with a pragmatic approach of real world libraries, in establishing platforms and tools, and numerous ideas that can be put into action.

In complementary, the seminar will also aim at to discourse upon, the new and unique opportunities to explore the key strategies, and the concrete suggestions to bridge the gap between the cultural and the hi-tech libraries, so as to quench the thirst of knowledge of the now and upcoming scholars, in an inspiring and learning atmosphere.

Objectives of the Seminar

- To assess new applications of new technologies in the modern information era.
- To understand how best to use new services in libraries.
- To share the experience of librarians for applying IT in their libraries.
- To underline the responsibility of the libraries/librarians towards the society.
- To understand financial impact of application of modern technology.
- To know how to make better use of library services with the application of new technologies.

About Rajasthan Technical Library Association (RTLA)

The Rajasthan Technical Library Association was established on May 28, 2010, under the Rajasthan Non Trading Company Act, 1960. An executive council of twenty one members was elected wherein, a constitution for the association was approved. In the present, It is a two division RTLA Branch- namely Jaipur division and Ajmer division, operated under three district levels- Jhunjhunu, Jaipur and Ajmer.

The main objectives of the Association are

- To encourage the development of libraries, in Rajasthan.
- To improve the eminence of dignity of the library managers.
- To empirically and frequently organize conferences, lectures and conversations.
- To encourage internship and training to the eminent library managers.
- To foster education to the illiterate rural population.
- To contribute to the success of other state, national and international organizations.
- To promote the computerization of libraries and information centers in respect their operation and services.
